TECElineo shower channel set, brushed stainless steel

Article number: 15301100

Total length L: 1000 mm
Colour: Brushed stainless steel
Visible width
after installation: 65 mm
Width in unfinished state: 67 mm
DU 1: 1 set
DU 2: 32 set

Description:

Shower channel for drainage, for installation in tile adhesive above the screed and composite seal.

Consisting of:
- Shower profile can be cut to length with internal slope to improve water drainage and self-cleaning effect
- Profile cover
- Drain with hinged flange for installation flush with the wall. Equipped with horizontal connection pipe for a DN 50 sewer line, including protective cap for construction and membrane odour trap
- Sealing collar for creating the composite seal
- Assembly feet for easy height alignment and position fixing during shell installation

Features:
- Shower profile can be shortened to ≥ 400 mm
- Profile cover loadable according to load class K3 - test load 300 kg
- Shower profile and profile cover made of stainless steel material 1.4301 (304)
- for floor coverings of 8-18 mm (incl. adhesive bed)
- for installation flush with wall for wall coverings from 10 mm (incl. adhesive bed)
- for installation on the wall (flush with the wall) or at any distance from the wall
- min. Installation height 75 mm (lower edge of drain to upper edge of screed)
- Drainage capacity ≥ 0.5/≥ 0.6 l/s (according to EN 1253 at 10/20 mm accumulation above profile cover)
- Sealing water height > 22 mm
- Removable membrane odour trap

Please order separately:
- Drainbase sound insulation mat (optional)
